## Mac vs. PC Discussion Outline

### A. Intro

1. Video
2. Are you a Mac and who is a PC?
  - Why did you pick that one? What makes it special?

### B. What are the pros and cons of Mac and PC? (On white board, then on slide)

1. Consider price, processors, variety, virus protection, quality of variety, quality control.
  - Is a greater variety with PC brands more helpful or hurtful to consumer when it comes to quality not quantity? (i.e. getting a product that is not defective or is not what the person desires)
2. Gary's Story on the iPad vs. Colby tablet.

### C. People prefer Macs over PCs for ease of use and stability, but other people prefer PCs over Macs for ease of use and stability.

1. Whose right?

### D. Microsoft beats Apple's when it comes to sales.

1. Why is that?
2. Can Apple ever change that and be the top earner?

### E. Mac's new iOS7 update.

1. What are your feelings on it? Is it better or worse?
2. Mac/Samsung and Mac/Android lawsuits.
  - Is Mac copying off of Samsung/Android?

### F. Any last issues from the audience on this matter?

### G. Thank You and Citations
